

## **Dr. Laurie Betito Bio**

Dr. Betito is a psychologist with a specialty in sex therapy, and has been a practicing psychotherapist for the last 15 years. Her professional activities and experiences are diverse. Fourteen years ago, she began a career in radio when, as a co-host, she joined the team of MIX 96 in Montreal; a station that broke barriers when it introduced a call-in show (*The Love Line*), airing once per week, all about sex and relationships. In 1999, she joined CJAD 800 with her own talk show (this time nightly), once again about sex and relationships. This show, "PASSION", has soared to take the number one position in its time slot, and it is the only show of its kind on Montreal airwaves.

Her television appearances are also quite numerous. Laurie can currently be seen across Canada, on a weekly basis, on **EROS** (The Life Channel) as well as on MenTV (a digital cable channel) where she hosts the show "**LET'S TALK SEX**". She has appeared frequently on various television programs, both as a commentator, and as a regular "sexpert", and is an accredited member of **ACTRA**.

Laurie has a regular feature column in **MENZ MAGAZINE**, which is available on newsstands across Canada, and has published several papers. She is affiliated with the Montreal General Hospital's Human Sexuality Unit, and is a senior member of their specialized team.

Laurie continues to lecture extensively in Montreal and across North America.
