Acting is what we do every day - instinctively.....

So mi mission is to wake up empathy and emotions.

Gerardo from an early age on enjoyed entertaining and motivating people, being a comedian for student parties & Salsa dancing events, gained experience as a model and in acting: his first 'growling' part at the age of 7 was a lion! A big passion is also imitating voices and accents, and another dream is to start a puppet theatre for kids. For his 2-year old son, he invents songs on a regular basis. He was the opening-voice recording for the Arts Club Theatre's *Don Quixote* and has volunteered for several Vancouver theatre companies for set building, light/sound, German/Spanish language coaching and in stage management.

Later he got his degrees in Economics and Political Science, gained experience as accredited journalist and defense expert (Aviation, Navy, Army), and he visited 43 countries in Europe, South & North America, Africa and Asia.

His hobbies are aviation (aircraft models), flying gliders, history, photography, and – guess what? - movies.

Here in Vancouver, Gerardo signed up to be a performer and has been enjoying the work. So he is extremely thrilled to be able to start as an performer now – back to a lifelong calling! In addition to being an actor, though, it is very important for Gerardo to contribute to a professional and fun atmosphere on set and to meet people, learn about their cultures and ways of life. Last year he was for 16 days on Steven Spielberg's BFG production, where he got nice feedback.
