

Resume Doris Doyon

I am retired from being a social counselor in a women shelter for the last 15 years. I stopped working in March and started to do some figuration in June. My first experience was in the most recent film of Xavier Dolan "Juste la Fin du Monde". I also worked on "Art of More" and nine days on "Akkaba"(X-MEN). I loved every minutes of it and hope to do a lot more. I had the great opportunity to have a speaking role in "Waiting Tough Love" that made it possible to become an Actra member.

Because I am now a retiree, I am always available for work. I do have a car and can speak ,read and write fluently in French and English.
