## About Frank:

Frank is growing up on a farm in Nova Scotia where he plays, works (when he wants to) and generally enjoys life. On our farm we grow vegetables and raise pastured pigs, chickens and goats. He loves veggies and handles animals. The farm provides him with plenty of room for biking and playing. Outside of school and home life Frank participates in two dance classes per week and summer soccer. In the winter he skis and snowboards for fun. When we can we head to a nearby lake for swimming in the summer. When asked he says his interests are: soccer, baseball & football.
