RESUME

Death metal singer since 1991 (Necrotic Mutation) and throat singer (Tibet, Mongolia, Inuit) since 1996, Sébastien mastered an impressive number of vocal techniques. It is thanks to these techniques that he began to work in the world of video games in 2005.

Since then, he has specialized in the sound creation of monster and fantastic creatures. He has worked on many video games (Far Cry Instincts, Assassin's Creed 2, Assassin's Creed Brotherhood, Prince of Persia (2008), Prince of Persia - The Forgotten Sands, Tera-Online, Spore Hero, Thief, Blade and Soul, Project TL, Rainbow Six Siege: Outbreak, Far Cry 5 and Shadow of the Tomb Raider) and some movies and TV series (The Colony, Helix Season 1 and Devil's Gate). He is also casting director and director of recording sessions for Signal Space Lab and he was director of recording sessions for creature voices in Shadow of the Tomb Raider (Eidos Montreal).
