I am described as having a friendly, sincere and approachable manner with an elegant and graceful style. A team player who is eager to contribute to the overall betterment of what ever project I am working on. To me, acting is a skill that challenges me in every way. It is such a thrill to be able to bring a character to life.

Over the past five years I worked very hard to learn about and understand the industry on many levels. I have gained valuable experience not only on a variety of film and television sets but also from the production side having worked on many live performances, sport and media events.

Being active in many seasonal sports, yoga, Pilates, downhill skiing, biking and hiking is a way of life to me. I love to travel and explore new cities, countries and cultures. What a way to learn about people and the world! Time with my adult children, their spouses, dogs and horses is always cherished time and I so look forward to becoming a grandmother in the coming years.
