

# Eunice

## Objective

I'm retired and I'd quip 'corporate head office wasn't like this' when I started this part-time work in 2016. There's film sets, movie making in my neighborhood, LOTS of it, so the work is in demand. I like being out, meeting people and this is an industry for it.

It's being anywhere, being any time that's a big reason for enjoying this work. It is movie magic and I play my small part.
