## Biography

Born in Reading, England I served in the British Army before moving to Canada. A chance encounter resulted in my working in film and I found a lifetime spent, soldiering, climbing, diving, surfing and skateboarding could be put to good use. I am also a highly qualified water safety professional with 20+ years of experience including certification from the University of Hawaii, Windward College Ocean Education Program as an Ocean Safety Technician, including the use of jet skis for water safety. I have also completed seven tours of duty in four different armed conflicts.
