### Professional Summary

Dominick is an extroverted leader with a positive outlook on life. Socially adventurous, he loves to make conversation and get to know everyone he meets. With not a shy bone in his body, Dominick loves to be in front of the camera constantly asking mom to "take a picture of me doing this" or "video tape this scene" while playing. He's extremely creative and intelligent while being a great listener who easily and happily complies with requests. Since a very early age Dominick's teachers and caregivers have commented on his astute personality and mature vocabulary combined with the ability to carry a conversation for his age being quite remarkable. Dom's hobbies include baseball, swimming, dance and playing with his younger brother.
