Sara Maiorana is a motivated, committed and talented actress with strong acting instinct. She began acting in primary school as she attended an academy with an artistic vocation. As a result, for eight years, she had the opportunity to learn theatre, dance and music and give several performances in which those three art forms were highlighted. In high school, she continued acting by selecting drama as an elective. Consequently, for five years, she was able to further develop her skills in acting and character development and walk the stage on many occasions. Since then, she has been following classes with actor Chip Chuipka at the ASM performing arts in Montreal as well as launching her professional career.
