ROGER CURRIE

(204) 772-7498   EMAIL: rogerc@mts.net

Roger is a well known veteran of many years in broadcasting, most of it in radio in Winnipeg. Although not formally trained, he has a beautiful singing voice which was ably demonstrated on the best selling CD "Starry Starry Night" released in 1996. Roger hasn't done any stage acting since his university days, but he insists that anyone who has been successful in radio has to have a flair for the dramatic. It's with this in mind that Roger enjoys working as an Extra on movie shoots in Manitoba, and would welcome the opportunity to expand into speaking parts. His imposing presence -- at 6'5" tall and over 300 pounds he is often mistaken for Chris Walby -- would make an interesting addition to any drama needing an 'authority' figure.
