## Other Experience:

School sports and team building - I play volleyball and basketball, and participate in other school activities as I am able to fit them into my schedule. Coaching and Refereeing is an optional course that I took in Grade 12

In 2006, I went to Italy and Greece with a group of fellow students from my school. This was an amazing experience and I learned leadership skills and how to live and work in harmony with my fellow students and interact with people from other countries.

I have also been to Australia once and Mexico twice.

In the future, I plan to attend Olds College and when my education is completed I would like to travel, stay with horse jumping and compete at the senior level and continue working in movies, which I enjoy very much and which has given me an opportunity to use my skills.
